-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 January 2008.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitation "the center of gravity" in claim 1, line 7. There is insufficient antecedent basis for this limitation in the claim.
4. The term "approximately" in claim 1 is a relative term which renders the claim indefinite. The term "approximately" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim(s) 1 and 2 is/are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi et al. U.S. Patent No. 6247557.

6. **Regarding claim 1**, Kobayashi et al. discloses a machine room-less elevator in which a car 4 raising and lowering along guide rails 9a, 9b and a counterweight 6 raising and lowering in an opposite direction of the car along a rear surface of the car 4 are driven by a hoist 2A, 2B provided at a top of a hoistway, comprising:

7. first and second hoist ropes 7A, 7B of two systems having
8. one ends fixed to at least approximately the centers of the right and left sides of the car 4 at positions 4ba, 4bb nearly symmetrical with respect to a center of gravity of the car 4 in a horizontal plane of the car 4 and
9. the other ends fixed to the counterweight 6,
10. wherein at least one of the first and second hoist ropes 7A, 7B is driven by the hoist 2A, 2B, shown in Figures 13 and 14.

11. **Regarding claim 2**, Kobayashi et al. discloses the first and second hoist ropes 7A, 7B are fixed, at the another ends thereof, together to the counterweight 6, shown in Figures 13 and 14.

Response to Arguments

12. Applicant's arguments filed 01/14/2008 have been fully considered but they are not persuasive.

13. In response to applicant's argument "FIG. 9 of Kobayashi, the first ends of the hoist ropes are not "fixed to at least approximately the centers of the right and left sides of the car"" the office does not rely on the embodiment in FIG. 9 of Kobayashi for the teachings of first ends of the hoist ropes fixed to at least approximately the centers of

the right and left sides of the car but instead relies on the embodiment in FIG. 13 and 14 of Kobayashi for the claimed structure of claims 1 and 2 previously stated in the last office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
